Note: These tax credit rates are based upon 2008 pre-budget figures and may change as a result of subsequent budgets.

Please note that due to limited funds this tax program will be offered to the public in distinct tranches. Participation in this innovative program will be based on a first come, first serve basis. Therefore, it is imperative that you declare your interest as soon as possible.

TRUST FUND

Canadians Care has carefully constructed this tax program to take into account existing guidelines and recent tax considerations of the Canada Revenue Agency. As such, we do not believe that a trust fund is necessary. However, we do realize that no matter how benevolent our actions, the CRA may challenge any tax receipt submitted by a Canadian for charitable donations. Therefore, we have established a trust fund in the unlikely instance that the Canada Revenue Agency decides to challenge any aspect of this program.
